

SDG.11.2.1

NUK provides the public with a culturally significant natural environment, and dedicates a webpage for the public:

1. It is a sustainable campus with an ecological pond and surrounding butterfly trail. It is an open space and provides an excellent venue for recreational activities of faculty, staff, students and the surrounding community.
2. It has installed public art throughout the campus with explanations for the understanding of these artworks.
3. For the ecological pond, butterfly trail, and public art, see the weblinks and attachments as follows :
